

Welcome to the **Deming Municipal Airport**. Located 67nm west of El Paso, Texas, and 185nm east of Tucson, Arizona, Deming enjoys 360 days of VFR each year and relief from the crowded skies found around its larger neighbors. Access to the IFR system is a phone call away.

The principal runway (8/26) has a length of 8,018', and covers 80% of the prevailing winds. It runs east-west , parallel to Interstate 10. The secondary runway (4/22) with a length of 5,675' has a northeast-southwest alignment that covers all but 2% of the remaining conditions.

In 1995, a **new modern terminal** with passenger and crew facilities was established on the north side of the airport. Fast turnaround fueling is provided from three fuel service trucks and a state of the art fuel delivery system. Line service is provided by professionally trained personnel.

Municipal Airport
